

You will use the Redskin Writing Rubric to guide you in writing an informative essay of 3 paragraphs presenting the pros and cons of maintaining rainforest biodiversity. No introduction or conclusion...just 2 paragraphs on one side and one paragraph on the opposing side.

1. You must refer to facts and story elements from the movie Medicine Man.
2. You must present a well supported argument for the side of the conservation issue you are choosing to defend in paragraph 1 and 2. Paragraph 3 should include a fact and support which addresses the 'other' side of the argument.
3. You may use outside sources (remembering to cite them).
4. The essay must be typed. Double spaced, 12 point—New Times Roman font, 1 inch margins all around. No title page please.
5. You should turn in a hard copy as well as share it on Google docs titling it this way: CLASS-PERIOD-NAME-Medicine Man.

For example: RB-2-Johnson-Medicine Man
